

Solar Power Information Session for Homeowners and Small Businesses

Solar Power - Earn money and help the environment

Wednesday, October 20, 2010 - 8 a.m. to 8 p.m.

The Cutten Club, 190 College Avenue East, Guelph

Interested in obtaining information about solar energy systems for homes and small commercial properties? Drop by the Solar Power Information Session, hosted by Guelph Hydro Inc. and Canadian Solar Solutions Inc., and learn about:

- Solar photovoltaics - what they are, how they work
- Ontario's microFIT (Feed-in Tariff) program for solar power
- Site considerations for rooftop or ground-mounted solar installations
- Installation process
- Financing and payback calculations

Representatives from Guelph Hydro Inc., Canadian Solar Solutions Inc., local solar installers and financial institutions will be on hand to answer your questions.

FREE ADMISSION • EXHIBITS • FREE PARKING

Presentation:

Solar Photovoltaic Basics (1 hour)

8 a.m., noon, 3 p.m., 5:30 p.m. and 7 p.m.

Seating is limited and will be on a first-come, first-served basis.
